What does your NATAL Horoscope Promise In Regard to Money(what astrological factors help you to get Money and what work against You):

Your money is defined by the strength of 2nd house lord and to some extent 11th house lord and Jupiter plus mercury.

In your case the 2nd lord mercury is just OK in Kendra, and gains energy as time passes by. So naturally mercury is also good- gives good ability to analyze and do finances or money related abilities.

Your Jupiter is exalted- so it gives very good flow of money.

But as Saturn aspects mercury, so as and when Saturn is weak or its period(dasha runs), you could face trails on the money front.

BONUS Remedies:

- Give money to the poor would help to reduce Saturn effects
- You could wear an amulet/Yantra for Venus for maximum career success.

b) Overview:

2015:

You have the sub period of Rahu running, rahu sits in 9th house and aspects 1/3 and 7th house.

It gets energy from malefic Saturn ruling 6th house as well(Leo ascendant).

So over all would give delays in money gains or returns you expect this time. Money through partnerships or contracts could also get delayed.

This could be a source of stress to you.

You have to work in a very organized manner to get the best of this time.

With a dedicated and planned effort- this is what you may expect in the coming year 2015 ending and 2016.

- This is a time when investments on art and beauty products could improve
- Investments and finances might go more towards home/company maintenance
- Taking ownership and responsibility is the best way to grow in this time
- Any rigid views could affect finances.
- Returns would be well if well thought for.
