=>IMPORTANT NOTE:

>>Astrology and Numerology are Probabilistic sciences:

- Vedic astrology and Numerology are probabilistic and subjective sciences like quantum physics , social science, or political sciences etc. So the predictions are also in the same fashion in terms of chances or probabilities.
- So there is No YES or NO or Boolean logic in Vedic astrology. It comes under fuzzy logic or probabilities.
- Just High ,Low or Medium Chances of things happening. 😊 This Is the basic nature of this science of Vedic astrology.
- **Just like after getting corona vaccine , the chance of one getting corona is less or reduced. Same applies to remedies or**

chances or probabilities of any event in life happening.

- So also doing remedies reduces chances of certain events happening. so say if the horoscope says fights are a high chance and you do more of say helping brothers or hanuman chalisa – the intensity and chance of fights reduces significantly.
- **>>Scope of the Report(Kindly Check Sample on the site) :**
- **The reports are delivered as per the format given on the Site(So the Format of Delivery of Report is on the site must be checked at your end, to know the Scope of the Report you have ordered and what to Expect from it.) .**
- We strive our best to deliver the report and try to go beyond the scope of the report.
- But as shared the reports have a definitive format and scope. The scope of any report must be understood from the site. As reports are transactional in nature addressing certain set of aspects of Vedic astrology.
- So any time you need anything beyond the scope of the Report you have ordered, or you find your questions or queries are unaddressed, no worries.
- Most welcome, Kindly feel free to ORDER them separately as specialized question report or any

other report fitting in the scope, we would be glad to help you.

>>Respect for Dignity of Astrology and the Astrologer:

- Astrology is a divine science and said eye of Vedas. So is a properly trained astrologer a guide who has worked hard to master this science and with full intent to help you.
- In interactions the attempt should be made to Give due respect full dignity of the astrologer's intent to help, skill & expertise and hard work.
- Developing an attitude of thankfulness and gratitude on what you got in the report would always help as a karmic principle.
- This would naturally draw the good karma and blessings for you from the cosmos and make your life easier.
