# **SECTION 1: Your Past Life, Reincarnation and Karma Based on Vedic Astrology**

## **What is Past life about?**

We have a very Powerful ,Unique & Rare Past Life Karma report. That unfolds your past events based on Vedic Swara Vigyana/Hebrew sages and also Vedic astrology. If interested you may please let us know. This report is a unique combination of wisdom of Vedic and Hebrew sages-as Vedic culture was spread over there in Egypt as well.

## **How Vedic Astrology deals with Past life?**

- The ancient science of Vedic astrology deals with past life based on the indications of the ninth bhava and influences coming on the same. Also, the 5<sup>th</sup> bhava is checked for purva punya as well. These houses and lords carry the energy of the past life.
- Just like there was an economic slowdown due to bad karma of people to do excess lending etc in 2010, same is true with human beings. If do not do the acts in the principle of creator we incur karmic debts and that reflect into his birth or coming birth. The world or the cosmos acts like a bank to store all the good and bad actions of the person.
- Also, the Vedic rishis have designed the higher divisional charts like the d9th or navamsha for the purpose and also the d12 or dwadasamas for

- the purpose plus the d64th for the purpose to check our past life karma.
- So, if the birth time is accurate and one has a deep enough knowledge of Vedic astrology one can at least
  - pinpoint the basic energies of the past life.

### **=>IMPORTANT NOTE:**

### **>>Astrology and Numerology are Probabilistic sciences:**

- Vedic astrology and Numerology are probabilistic and subjective sciences like quantum physics , social science, or political sciences etc. So the predictions are also in the same fashion in terms of chances or probabilities. the basic nature of this science of Vedic astrology.

- In interactions the attempt should be mad
- Give due respect full dignity of the astrologer's intent to help, skill & expertise and hard work.

- This would naturally draw the good karma and blessings for you from the cosmos and make your life easier.

- Note you have destiny number = 7= ketu , that means spirituality or depth factor has come in this life time as well.
- Also note you are born on 30<sup>th</sup> = 3+0= 3=Jupiter. So Jupiter and ketu both form a Yoga in your number's horoscope in this life time and are most important or core energies and also so was Jupiter and ketu energy important in past life time as well.

- In the past life incarnation as well , you were keen into occult and astrology and other Vedic sciences for sure.
- Note Jupiter the planet for dharma, after life etc in 12<sup>th</sup> bhava of Moksha , so very happy there. Doing some spiritual practises as well sooner or later in life.

### **Pythagorean or Yavan-acharya Numerology**

- He combined mathematics and numbers study or numerology in one system. Like the Sankhya system of India and Vedic mathematics (a powerful and client system cryptically mentioned in the vedas for fast calculations).
- Pythagoras could be treated as a guru of the Vedic tradition itself. He could also see many of his incarnations in the past in one row.
- He developed a very powerful and authentic system of numerology which is simple like A=1, first alphabet, B= 2 and K= 11=1+2=2 and so on z= 26<sup>th</sup> alphabet = 2+6= 8.
- Given below are your name and birth date analysis and connection with your past karma based on yavana chrya system of Pythagoras.

 HEART NUMBER TOTAL = [13]=4=rahu**

- Destiny number is 7 for you it is ketu, suggesting a deep and intense life in general
- Your heart number is =4 = rahu , E= 4= rahu and also Hebrew and cheiro is rahu
- Having Pisces energy as well in it.
- Your POI or high energy numbers = 1 and 4= rahu
- The depleted numbers are = 2,3,5,6,8
- So as we saw earlier in astrology Saturn and sun are in conflict
- Above high rahu energy afflicts sun or your success, father, and fame. So this has to be handled.
- Also rigid or blocking thought process has to be worked out with Yoga and mediation
- EGO or insistence on own views POI=1 and depleted numbers are 2,3

- So try to adjust more to others' views as well.
- Sports or any games would help you.
- So would shiva japam as suggested earlier help you a lot.
- Donation to old age homes is a must for you regularly
- Also note you form kaal sarpa Yoga as per numerology 4 x7, but it is partial kaal sarpa Yoga, so leads to failures
- But this has to be resolved as in your horoscope also kaal sarpa Yoga is there.
- So this is proved both based on numerology and astrology.
- Also do om gum ganpataye namoha 108 times x as many , donation to temples and also meditation more and all would be great for you. All your job problems and money problems would go away.

## **Hebrew Numerology based Interpretation of your Number Horoscope**

### **About Hebrew Numerology and Prophet Moses**

- Prophet Moses was born around 1571 BC. He is said to be an earlier prince of Egyptian prince as per Bible. Actually if we study history, the sanatan dharma the mother of all religions was all over the world includes south America/Australia/Russia/Africa etc. but in kali Yuga as lord Krishna declared the start I Mahabharata times- the sanatan dharma started declining and has remained only in India Nepal and some part of the countries.
- Prophet Moses was sent by GOD to revive the basic dharma in these regions. One can clearly see the concept of reincarnation is there at least with a sizable Jews and Christian Rosicrucian's

at least. The most important is that it is said that Moses developed a system of numerology to know about past life so as to help the soul to evolve much faster. This numerology is based on the same. The Hebrew cabala is on some similar patterns. Yes, they do believe in past lives. For sure.

The life is dividing into 6 aspects here & corresponding word vibrations with the same which interact with your chakras and your mind

- **Physical Talents=A+A=2**

• **Spiritual talents= J+S =25= 7**

• **Physical goals= I+A =11**

• **Spiritual goals = V+D ==10**

**GRAND TOTAL(The Destiny of the SOUL)**

**=29x 2= 58=13**

• **Your Physical karma = 10**

- The physical karma that you have inherited is the base number =1, so you have to look at unity of things and not be restless or too analytical in your approach (note destiny number 7 could make you a bit analytical in approach). You have a manly or masculine expression of GOD coming through you. The male energy or the lord Shiva representation.
- The number 10 suggests that you should be free flowing as you are born with mercury energies, so do more of sports and Yoga to bring this out for overall success- but at the same time not to miss on unity in matters. Like for studies matters like Vedic math's could develop more unity in thought process and in physical culture matters like doing Yoga or suryanamaskars could do you a favour in integrating the physical view point.

- Please note your power number in Pythagorean system is also number 1 comforting the same.
- Your power number is also sun=1 = so a lot of proving as you pass your middle age. But with your depth of thought and basic initiative you will be able to handle all this well.

## **Elaborations with Correlations of your past Numbers and Horoscope or Kundli**

### **• Your Spiritual karma = 21**

- As per spiritual karma, you will have to face fair enough spiritual challenges in this lifetime. Especially of controlling restless mind at times and may be sexual attractions. This we got from Vedic astrology as well
- You will have to build endurance by spiritual practices like art of living or lord Shiva prayers.
- You will have to go deep within to get knowledge and share with people.

### **• Your Physical talents=2**

- 
- You are inherently physically creative( note P=1 in the energy plane). You have a good talent within you to express on the physical plane. But for some reason you

are spending it too much on mental plane or emotions-  
you have to come to physical plane and work hard.

• **Your Spiritual talents=25/7**

- Your spiritual talents could be combining spirituality and materialism into one thing and live a peaceful life. Note a good Jupiter and fair mercury energies would give you this.

### • **Your Physical goals= 11**

- Your physical goal is to express on the physical plane or in the materialistic world to be number 11 or source of inspiration and balance your material success of the world and spirituality. We got the same results in Vedic astrology as well. ( now P=1 and also your power number =1, all indicate the same, so develop more will power with Yoga and meditation and all would be great). But for some reason you are spending it too much on mental plane or emotions- you have to come to physical plane and work hard.
- Also develop more cooperation and sensitivity towards others . avoid mental stress.

### • **Your Spiritual goals = 10**

- As you reach end of the lifetime, you will focus more and more on spirituality and yes your responsibilities and home.(Note power number =1 so hinting towards it). Rahu prayers or lord shiva prayers from now itself as suggested are a must for you. ☺
- You will have to take up leadership and ownership of family and a large section of society then.
- The above leadership has been covered in the maturity number coming to 1 or sun.

- You will show your true ability as you advance in age.

## • The destiny of Your SOUL(Most Important)

**61/7=**

- Your life goals could be combining spirituality and materialism into one thing and live a peaceful life( same as we got earlier). Note a good Jupiter and fair mercury energies would give you this.
- You at your end also need Freedom in movement and independence and could get fairly daring and free flowing 😊 at times.
- also

You have to combine your business/materialism along with spirituality to get the best results. You will become wholesome and complete in life. means without adding ego at your end and let it go. You will achieve all what you want.

Be compassionate as you are and be less impulsive.

. so, you can see how Vedic astrology and Hebrew numerology or kabbalah match,. Actually, Vedic culture was there in Egypt and with Moses . but due to various reasons it got developed in a different direction. Sri Moses taught this Gyan of shabda to his chooses disciples. Yes, Moses and Jews do believe in reincarnation later on this knowledge GOT lost ;) but revived again in the 20<sup>th</sup> and 21<sup>st</sup> century . ;)

**summary**

- We can clearly see what Vedic astrology said about kaal sarpa or balance of spirituality and materialism is coming exactly in the Numbers report as well.
- Yes we got the remedies to our problems as well. 😊
- That karma is with you so do more of YOGA and be stable and stronger and not aggressive or dominating.

### **CONCLUSION of Report**

- The conclusions are same
- Sun Saturn conflict , balance of materialism and spirituality and obviating of kaal sarpa Yoga is needed.
