 The ancient science of Vedic astrology deals with past life based on the indications of the ninth bhava and influences coming on the same. Also the 5<sup>th</sup> bhava is checked for purva punya as well. These houses and lords carry the energy of the past life.

- Just like there was an economic slowdown due to bad karma of people to do excess lending etc in 2010, same is true with human beings. If do not do the acts in the principle of creator we incur karmic debts and that reflect into his birth or coming birth. The world or the cosmos acts like a bank to store all the good and bad actions of the person.
- Also the Vedic rishis have designed the higher divisional charts like the d9th or navamsha for the purpose and also the d12 or dwdasamas for the purpose plus the d64th for the purpose to check our past life karma.

So if the birth time is accurate and one has a deep enough knowledge of Vedic astrology one can atleast pin point the basic energies of the past life.
